

# Legacy Products

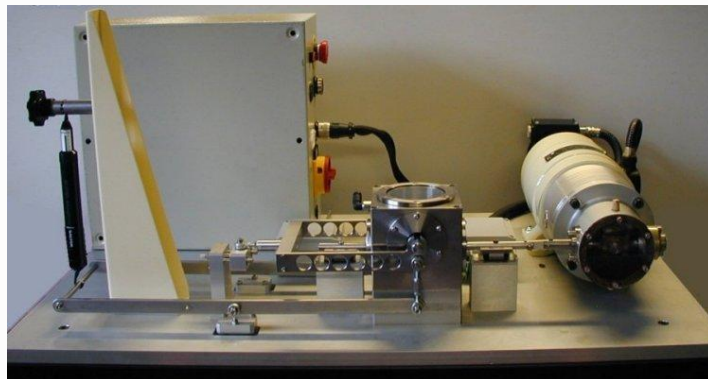

---

Over time, demand changes and some products are superseded by new designs. Although the engineering information is retained, it makes sense to retire or replace some of these products. Here are some examples:

TE 56 Block on Ring Machine (ASTM G137)

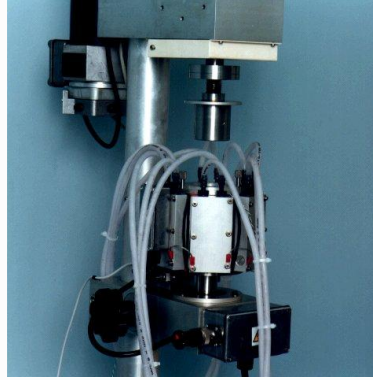

TE 57 Pressurized Lubricity Tester

TE 62 Bench Viscometer

TE 63 Low Temperature Grease Viscometer

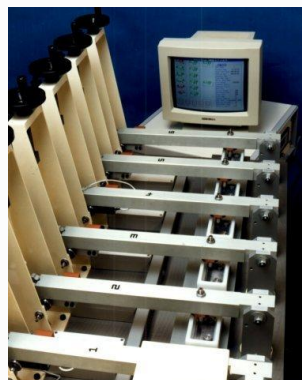

TE 64 Slurry Erosion Rig

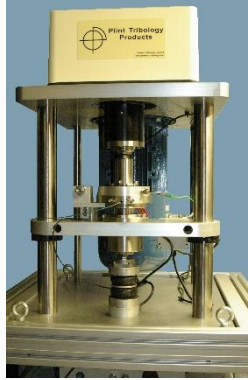

TE 82 High Speed Rolling Four Ball Machine

TE 88 Reciprocating Pin on Plate Machine

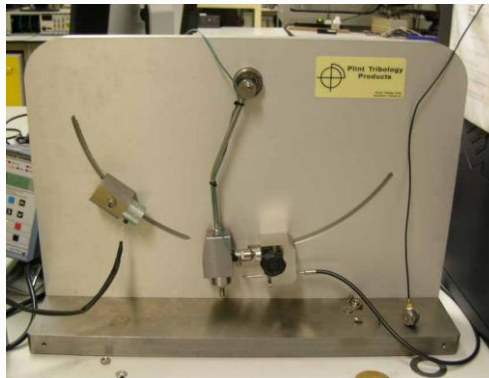

## TE 93 Precision Thrust Washer

## TE 96 Inertia Vacuum Micro-tribometer

## NPL Impact Hardness Tester
